PROFESSIONAL PROFILE

Full-stack developer with a data analytics background who builds responsive, mobile-first web apps. Comfortable across the stack, from designing REST APIs and database schemas to polished React UIs, using React, Next.js, Node.js, Supabase, Firebase and PostgreSQL.

WORK EXPERIENCE

Software Developer (Internship), Thai Chemical Storage Company Limited | Aug 2026 - Dec 2026
Designed and developed company websites from the ground up, turning business needs into clean, responsive pages. Worked directly with stakeholders to gather requirements and deliver features that met their expectations.

Data Analyst (Part-time), Rangsit International Language Center | Jan 2024 - Apr 2024
Analyzed data and managed digital forms, strengthening spreadsheet skills and cross-cultural communication.

ICT Tutor (Freelance), Rangsit University | Jun 2023 - Present
Mentored 10+ classmates on databases, web fundamentals and programming; improved project completion rates.

Web & Database Trainee, Teacher Ei Mon Mon Swe, Yangon | Jul 2020 - Sep 2022
Built web projects with HTML/CSS/JS; worked on SQL schema design and data normalization.
