

Hsu Lab Phyo Pai

Software Developer

hsulab9@gmail.com | github.com/Iggy14 | linkedin.com/in/hsu-lab-phyo-pai-b65669309 | Pathum Thani, Thailand

SUMMARY

Full-stack developer with a data analytics background who builds responsive, mobile-first web apps. Comfortable across the stack, from designing REST APIs and database schemas to polished React UIs, using React, Next.js, Node.js, Supabase, Firebase and PostgreSQL.

EXPERIENCE

- Software Developer (Internship)** · *Thai Chemical Storage Company Limited* Aug 2026 - Dec 2026
 - Designed and developed company websites from the ground up, turning business needs into clean, responsive pages.
 - Worked directly with stakeholders to gather requirements and deliver features that met their expectations.
- English Teacher (Part-time)** · *Erudite Organization* Feb 2025 - Jun 2025
 - Supported 5+ students in improving spoken and listening English confidence through one-on-one sessions.
- Data Analyst (Part-time)** · *Rangsit International Language Center* Jan 2024 - Apr 2024
 - Analyzed data and managed digital forms, strengthening spreadsheet skills and cross-cultural communication.
- ICT Tutor (Freelance)** · *Rangsit University* Jun 2023 - Present
 - Mentored 10+ classmates on databases, web fundamentals and programming; improved project completion rates.
- Web & Database Trainee** · *Teacher Ei Mon Mon Swe, Yangon* Jul 2020 - Sep 2022
 - Built web projects with HTML/CSS/JS; worked on SQL schema design and data normalization.

PROJECTS

- RemindU** React, TypeScript, Supabase, Gemini, PWA github.com/Iggy14/RemindU
 - Installable, mobile-first AI life-admin PWA: describe a responsibility in plain language and it becomes a reminder with push notifications.
- ReelGroup** Next.js, TypeScript, Supabase, Tailwind CSS github.com/Iggy14/ReelGroup-Movie-Picker
 - Group movie-night picker: suggest films, vote, track what you have seen, and settle ties with a live bracket.
- TankQ** Next.js, TypeScript, Tailwind CSS, shadcn/ui, next-intl tankq-solution.com
 - Bilingual (Thai/English) marketing and catalogue website for an FRP tank manufacturer.
- Finance Tracker** React, Vite, Supabase, Recharts github.com/Iggy14/finance-tracker
 - Mobile-first expense tracker across multiple bank accounts with a daily calendar, per-account budgets, analytics dashboard and Google sign-in.

SKILLS

- Languages** TypeScript, JavaScript, HTML, CSS, Python, SQL (PostgreSQL)
- Frontend** React, Next.js, Vite, Tailwind CSS, shadcn/ui
- Backend & Data** Supabase, Firebase, Node.js, Express
- Tools** Git, GitHub, Docker, Vitest, Zod, PWA, Power BI, Tableau, Excel, Google Colab
